

# Head On 2

Look out for Gremlin's HEAD-ON 2... the biggest driving force in video games today! HEAD-ON 2 is on a collision course with your location. And when it hits, heads will turn as players rally for new video excitement.

What's new in HEAD-ON 2? All the action is in brilliant, attention-getting color. The pace is fast and thrilling. And what an explosive sound when cars collide!

Two turn-around lanes have been added on each side of the screen. They allow either your players' car or the computer car to reverse direction and set up a whole new kind of game. So now there's a chance of a head-on collision and a rear-end collision!

You can't beat HEAD-ON 2 for challenging, fast-paced thrills. It's a sure way to start your drive for cash box profits.

# Head On 2

## PLAY ACTION

With Gremlin's Multi-Phase™ concept, HEAD-ON 2 gets tougher as your players' skills get better. Here's how it works.

First, you drive against 1 computer car. Clear all the lane markers and you'll gain 300 bonus points.

Then 2 computer cars go against you, for a real challenge! Clear all the lane markers again and you'll get an even bigger bonus.

Now 3 computer cars appear. It's a real test of skill. You'll get more bonus points again when

you erase all the lane markers. And at 5000 points, you get another car!

But then comes the ultimate test: 4 computer cars! It's not easy, but it can be done. And it's lots of fun trying.

And HEAD-ON 2 is available as a one or two player game, making it easier for two players to have a go at HEAD-ON 2.

Get in the fast lane to higher profits and new game excitement today. Get HEAD-ON 2!

## CONTROLS

**Player Controls**—These include the Joy Stick, which controls the car direction, up-down, left-

right. The Accelerator Button allows players to move their cars faster or slower. For fast, push button. For slow, release button. The one or two player Start Buttons are prominently placed to encourage multi-player use.

**Operator Controls**—These include our exclusive E-Z ADJUST™ controls for volume and sound-off during advertising. You can also easily change the number of player cars simply by setting a switch on the logic board.

## CABINET MODELS

**Arcade**  
54" H x 37" W x 34" D  
14 1/2" H x 12 1/2" W x 7 1/2" D  
200 lbs., 175 lbs.
